Get to know TOPMOTIVE

COMPANY

The **TOPMOTIVE Group** is Europe's market leader in catalog, information and ERP systems for the automotive independent aftermarket.

Our Romanian subsidiary is part of the **TOPMOTIVE Group** since its foundation in 2008. Together with our German partners, we develop **complex software solutions** for wholesalers and manufacturers of vehicle parts as well as repair shops. Under the TOPMOTIVE umbrella brand, we are able to work on our own **independent products** and to act **creative and innovative**.

The **high quality** of our products is based on 30 years of experience in the market, **300+ specialists** as our employees in 9 locations all over Europe and are used by **500+ customers** all over the world.

Are you ready to join our **exciting and active team**?

With us, you will have the opportunity to work in a **friendly environment** with **professional colleagues**, embrace the know-how, develop, create and innovate and last but not least, be part of software projects for the automotive market.

.NET WEB DEVELOPER

1 OPEN POSITION - MID LEVEL

We are searching for a talented **.NET Developer** to help us build and grow our **Blazor Web applications**. In this role, you'll be working with **modern technologies in the Microsoft ecosystem**, creating interactive and scalable solutions that deliver real value to our user

PROFESSIONAL COMPETENCIES:

Education: University degree. Preferably in Computer Science, Information technology

REQUESTED TECHNICAL COMPETENCIES:

- **3+ years of experience** in web application development
- Strong expertise in **C#, .NET Core/.NET6+**, and **Entity Framework Core**
- Solid understanding of **web development fundamentals** (HTML5, CSS, JavaScript/TypeScript)
- Experience with relational databases (**Oracle**)
- Familiarity with version control systems (Git, TFS)
- Strong problem-solving ability and willingness to learn.
- Strong analytical and debugging skills

WHAT YOU'LL DO:

- **Develop and enhance applications** using Blazor with .NET 9
- Build **reusable UI components** and deliver seamless user experiences
- Connect front-end functionality with **APIs and backend services**
- Troubleshoot, debug, and improve application performance
- Write clean, maintainable code and contribute to code reviews
- Take part in architectural discussions and suggest improvements
- Work closely with the team to deliver features on time and with high quality

Nice-to-have:

- Knowledge of **Blazor and Razor components**
- Exposure to **automated testing frameworks**, including NUnit for Blazor
- Understanding of authentication & security frameworks
- Octopus Deploy for deployment automation and release orchestration

WHAT WE OFFER:

- The opportunity to work in a **professional international environment**
- **Competitive salary package**
- Professional workplace equipment
- **Different, entertaining and healthy** kind of bonuses
- **Personal budget** for certifications and trainings for your professional development
