POSTGRESQL DEVELOPER

1 OPEN POSITION - MID LEVEL

We are searching for a talented **PostgreSQL Developer** to help us design, build, and operate **robust database solutions**.

In this role, you'll focus on developing and optimizing **PostgreSQL databases**, while also contributing to **DevOps processes** and collaborating with **.NET-based application teams**.

You'll be working with **modern technologies**, ensuring high performance, scalability, and reliability of our data layer, while **supporting application development** and cloud-based deployments.

PROFESSIONAL COMPETENCIES:

Education: University degree. Preferably in Computer Science, Information technology.

REQUESTED TECHNICAL COMPETENCIES:

- **2+ years** of working experience with PostgreSQL
- Experience with **database design, normalization, and indexing strategies**
- Familiarity with **database DevOps practices** (CI/CD, migrations, automation)
- Experience working alongside **.NET (C#, .NET Core/.NET 8+)** applications
- Strong analytical thinking and problem-solving skills

WHAT YOU'LL DO:

- **Design, develop, and maintain** PostgreSQL databases and schemas
- **Optimize** database performance, indexing strategies, and query execution
- **Manage** database migrations, versioning, and data integrity
- **Collaborate** with **.NET developers** to integrate database solutions into applications
- **Contribute** to architectural discussions and data modeling decisions
- **Ensure** security, backup, and recovery strategies are in place

NICE TO HAVE:

- Experience with **Azure** (Azure Database for PostgreSQL, cloud deployments, other Azure services)
- Knowledge of **containerization and infrastructure** (Docker, Kubernetes)
- Experience with **React** or **modern frontend frameworks**

WHAT WE OFFER:

- The opportunity to work in a **professional international environment**
- **Competitive** salary package
- Professional workplace equipment
- Different, entertaining and healthy kind of **bonuses**
- **Hybrid** working type
